

PayPal Show agreement details

Overview

Shows details for a billing agreement, by the ID that was created in [PayPal Initiate billing agreement](#).

Required fields

- billingAgreementID - billing agreement ID in params
- ppcUid - PayPal Payment Provider Contract UUID in query

Optional fields

There are no optional fields.

Here is an example of a GET request that can be used for getting billing agreement details.

```
curl -v -X GET '<SERVER URL>/billingAgreement/<Agreement Id>?ppcUid=<PPC Id>' \  
-H 'Authorization: Bearer <Access Token>'
```

Response code example

```
{  
  "id": "B-1WW844612B6208426",  
  "state": "INACTIVE",
