

Verifone Central

1. Log in to your Verifone Central account. Navigate to **Commerce** -> **Reporting** > **Transactions**.
2. Search for the transactions by entering the *Transaction ID* in the search box or by using the filters. For more information see the [Transaction Filters](#) documentation.

Merchant Copy Email

Cardholder Copy Email

The receipts will not be sent automatically to the shopper's mailbox, after creation. They will be saved and will be available, in Verifone Central, when merchants will need to manually send a receipt to their mailbox. The receipts are accessible for a minimum of 180 days.

For retail (in-store solution), the receipts will be displayed in a similar way as for ecommerce receipts, in the *Transactions* section from Verifone Central under the **Documents** tab. However, some specific particularities may appear depending on countries/regions.

- **Mexico retail solution** supports the following cards: Amex, Mastercard, Visa, Carnet.
 - The receipts can be sent by e-mail and seen in browser in Verifone Central application. The supported receipt types are the following:
 - Sale

- Sale + TIP
 - Sale + QPS
 - Sale + installments
 - Sale + BBVA points
 - Pre authorization
 - Pre authorization completion
 - Refund
 - Void
- In Mexico only the **Merchant Copy** of the payment document is available. The document is available only in PDF format. The merchant can see the transaction receipt for each transaction type and forward it to any specific email address, by clicking the appropriate button.
