

## **C-Site Management**

Verifone's C-Site Management tool allows site's to remotely access their configurations and make modifications to multiple stores that have been onboarded to the tool.

*Review the C-Site User Documentation to learn more about the product.*

**To sign up for Verifone's C-Site Management access go here:**

[Register \(verifone.cloud\)](https://verifone.cloud)

**To access the Verifone C-Site website after your account has already been created go here:**

<https://us.live.verifone.cloud/>

**Check out the Verifone C-Site Onboarding Video to learn how to get your site online.**
