C-Site Management

Verifone's C-Site Management tool allows site's to remotely access their configurations and make modifications to multiple stores that have been onboarded to the tool.

Review the C-Site User Documentation to learn more about the product.

To sign up for Verifone's C-Site Management access go here:

[Register (verifone.cloud)](#)

To access the Verifone C-Site website after your account has already been created go here:

https://us.live.verifone.cloud/

Check out the Verifone C-Site Onboarding Video to learn how to get your site online.

Onboarding release version 53.35 to 54.01

Onboarding release version 54.02 +
