

VFIBarcodeConfig.h

```
class VFIBarcodeConfig : public NSObject
```

- Barcode configuration

```
nullable NSNumber *autoBeep,[scannerFormats] nullable NSArray< NSNumber * > *scannerFormats) triggerMode,[autoBeep]
```

rs

nonatomic

- Trigger mode values, see `BarcodeTriggerModeEnum`
- Auto beep values, see `BarcodeAutoBeepEnum`

Use the formats to restrict the symbologies used by the scanner to capture a barcode.

```
nullable NSArray< NSNumber * > * scannerFormats
```

```
*triggerMode,[autoBeep] nullable NSNumber *autoBeep,[scannerFormats] nullable NSArray< NSNumber * > *scannerFormats)
```
