

CommandStatus.hpp

```
struct CommandStatus
```

- Status to indicate errors during command verification and processing on Terminal side.

```
static constexpr int32_t ABORTED
```

```
static constexpr int32_t AUTHENTICATION_ERROR
```

```
static constexpr int32_t BAD_FORMAT
```

```
static constexpr int32_t COMMAND_UNSUPPORTED_BY_TERMINAL
```

```
static constexpr int32_t COMMAND_NOT_ALLOWED
```

```
static constexpr int32_t COMMAND_TIMEOUT
```

```
static constexpr int32_t CONFIG_ERROR
```

```
static constexpr int32_t DEVICE_BUSY
```

```
static constexpr int32_t TERMINAL_INTERNAL_ERROR
```

```
static constexpr int32_t TERMINAL_INVALID_ARGUMENTS
```

```
static constexpr int32_t USER_CANCELLED
```

```
static constexpr int32_t USER_INPUT_TIMEOUT
```

- Timed out waiting on interaction from user on Terminal
