

Boarding Services

Verifone Boarding Services is the solution where users can place orders through Verifone Central via an automatized process thus reducing the time for activating payment methods or delivering devices.

Verifone's Boarding Services enables you to order a streamlined omnichannel payment solution loaded with the software and services you need all from a single online location. Signing up online is easy through our seamless onboarding portal or integrate via API for full automation. We provide a wide range of payment devices, services and features that help support your business model while uncovering new revenue-generating opportunities like loyalty and Advanced Payment Methods (APMs).

Verifone Boarding Services automates the end-to-end operational processes from ordering payment and services to accepting payments. Plus, it simplifies operations, reduces the overall cost, and delivers a high level of service by creating consistent experiences anywhere, anytime.

Availability

If you are a **reseller**

- **Reseller Manager**
 - An external reseller employee who can create, view and manage orders at any country level within their reseller group.
- **Reseller Representative**
 - An external reseller user who can view the portfolio, create, view and manage the users own orders on behalf of the country the user is in.

If you are a **merchant**

- **Merchant Unapproved**
 - A customer who signs up online will automatically get *Merchant Unapproved* as user role. This is the role for users who have not yet signed a merchant order.
- **Merchant Order Admin**
 - A customer who has self-onboarded and has signed their first agreement gets automatically assigned this role. This role is assigned to users who can have permission to create, view and modify orders with Boarding Services. It is complimentary to the Merchant Admin role, meaning this can be added to a user which also has the MERCHANT ADMIN role.

For more information on user roles and permissions see the [User roles and permission](#) documentation.

Benefits

- Easy to use self-registration through the Verifone Central portal or integration through Order Service API.
- Simplify ordering for Payment Devices and Ecommerce Solutions, upsell services and increase sales.
- Place hardware and service orders and create new contracts.
- Track the order progress through a dashboard overview.
- Speed up the process of ordering devices and configure omnichannel payment solutions with software and services you need from a single location.
