

## FallbackCode doxydoc

```
namespace VerifoneSdk
```

```
enum class FallbackCode
```

- This is an optional item included in some specifications as part of the POS entry mode used to indicate the specific details of how fallback was performed.
- Used in Host Authorization

```
enumerator ICC_TO_MAG_STRIPE
```

```
enumerator ICC_CONTACTLESS_TO_MAG_STRIPE
```

id.

```
enumerator ICC_CONTACTLESS_TO_MANUAL
```

manual entry instead.

```
enumerator ICC_TO_MANUAL
```

```
enumerator MAG_STRIPE_TO_MANUAL
```

instead.

```
enumerator MAG_STRIPE_TO_ICC
```

- Mag stripe read failed using ICC.
