#### Delete Pre Auth in Semi Integrated Mode:

[https://verifone.cloud/docs/sca-functional-specification/html/processor\\_implementation/supported\\_trans\\_global\\_can](https://verifone.cloud/docs/sca-functional-specification/html/processor_implementation/supported_trans_global_can)

Updated: 04-Dec-2024

In Global Solution, Delete Pre-Auth needs to be sent as Completion for zero amount. In semi integrated mode to perform a Delete Pre-Auth the Delete tab command need to use in Restaurant mode. The Delete Pre-Auth request packet will be sent with a transaction code FS02 which is a completion and amount of \$0.00.

Note

The receipt for Delete Pre-Auth will print Pre-Auth amount and Delete Pre-Auth as Label. VIOD Transaction should not be performed to delete a Pre-Auth.

### Transactions Not Supported

- Store and Forward
- Gift transactions
- FSA transactions
- TIP adjustment
- EBT transactions
- Check Processing
- Private Label
- Loyalty
- Token Query
- Signature expanded
- Reports except Settlement and Last transaction
- Restaurant mode: Open Tab, Close Tab and Delete Tab
