Other Administrative

This section details the other administrative commands those are executed outside the session.

Rules

1. The terminal should be fully initialized on Idle screen.
2. SETTIME command should not be executed during an 'open' session between the POS and the payment device. The SETTIME command is intended for non-payment purposes and is only allowed outside of a session. It is recommended to run FINISH transaction prior to SETTIME.
3. For Lane Closed command, the session should be active. Execution of LANE_CLOSED command also ends any active session.

Configuration Parameter

Following are the configuration parameters which affect the operation. Refer to Application Parameters table for more details on the below parameters.
