Customize your Verifone Central account

Overview

Verifone Central gives you a streamlined way to manage your business, and while customization options are still limited, you can choose your preferred language to view the portal in a way that works best for you. We're actively working on adding more personalization features to enhance your experience.

Choose your preferred language

Once you have access to your account, you can perform small customizations such as selecting the language in which you want to view your account.

To do so, follow the steps below:

1. [Log in](#) to your Verifone Central account.
2. Select your preferred language from the language drop-down menu on the right side of the Verifone ribbon.
3. Click on the **Apply** button to save your language settings.
4. Your preferred language is saved in the browser.

5. You can also change the language preferences after logging in to your user account from the **MyAccount** drop-down.

- Click on your name initials on the upper-side ribbon of Verifone to access *My Account*.

Welcome back!

- After clicking on **MyAccount**, reset the interface language for your Verifone Central account by clicking the **Edit user** button and then the **Interface language** tab.
- From the drop-down, you can choose one of the multiple languages available.
