

Klarna

Overview

Klarna Bank AB, commonly referred to as Klarna, is a Swedish fintech company that provides online financial services such as payments for online storefronts and direct payments along with post-purchase payments.

It was founded in Sweden in 2005 and it's currently used in nearly 20 countries by almost 90 million shoppers. By using the Klarna mobile app you can secure small loans at checkout for both online and in-store purchases.

This guide requires familiarity with [Accepting payments](#).

Availability

The Klarna solution offered by Verifone is available to shoppers in Denmark, Finland, Germany, Norway, Sweden, United Kingdom, United States of America in these currencies: DKK, EUR, NOK, SEK, GBP, USD.

For other EMEA countries or regions reach to the local Sales / Verifone Representative Team.

Benefits

- Merchants can increase sales and conversion rates as Klarna is one of the leading payment solutions in the Nordic countries.
- Merchants can reduce costs by using the same payment provider for in-store, in-app, and online .
- Merchants can offer shoppers the option to choose from different payment options that suit their needs and increase sales.
- Simplify payment acceptance across in-store, in-app, and eComm channels for merchants.
- Provide a seamless payment experience for end-consumers across all channels.
- Provide an end-to-end solution for the entire Klarna Merchant Journey.

Workflow

Verifone processes B2C payments with Klarna via Interacard (i.e. Verifone is involved in the funds' flow) and provides the transaction reporting.

If you're already using Verifone's Hosted Checkout, once you activate Klarna as a payment method, the payment option will be displayed in your shopping cart. When your shoppers choose to pay with Klarna, they are redirected to Verifone's Hosted Payment Page and shoppers will follow the payment flow to finalize their purchase. Then, Verifone returns the transaction response/confirmation to you.
