

## Create Rollout for a Single Device

### Create Rollout for a Single Device

The **Rollouts** feature has an option to create a Rollout for a single device.

To create a rollout for a single device.

1. Go to **Verifone Central -> Device Management -> Rollouts -> Options -> Create New Rollout.**

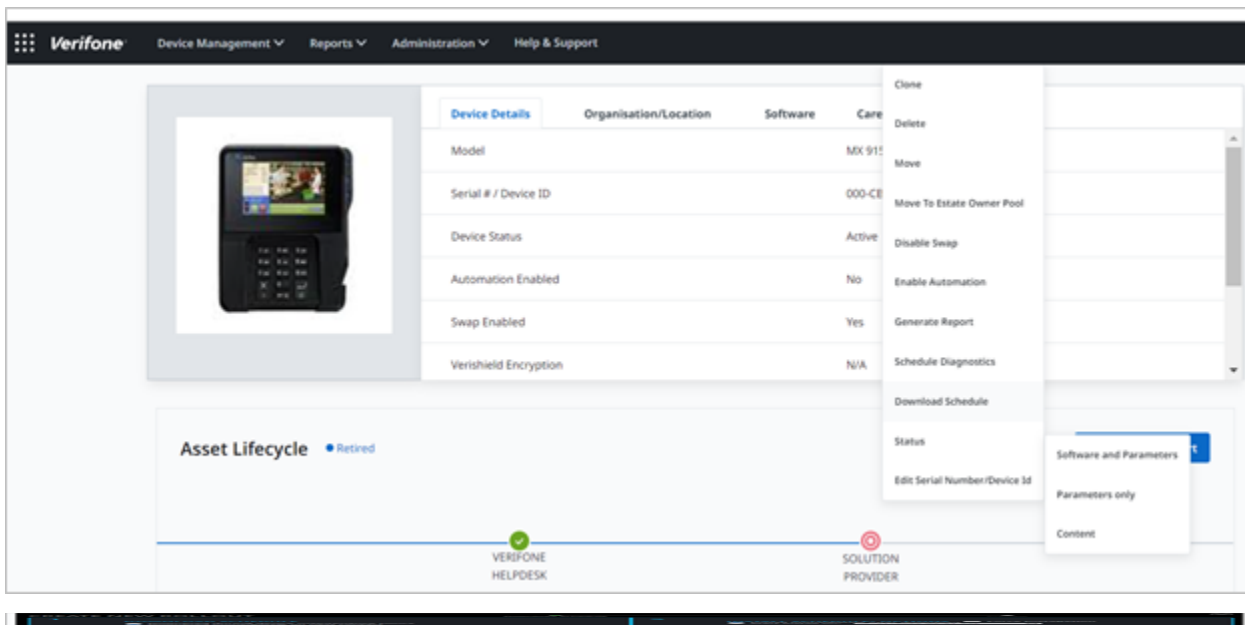

The screenshot shows the 'Devices' page in Verifone Central. It features a table with columns for Serial #, Device ID, Model, Last Heartbeat, Device Status, and Hierarchy. The table lists several devices, with most having a 'Pending Registration' status and one having an 'Active' status.

Serial #	Device ID	Model	Last Heartbeat*	Device Status	Hierarchy
000-144Apr-001	csv14Nov23	MX 915		Pending Registration	AutomationRootHierarcl
000-144Apr-002	csv14Nov24	CM5		Pending Registration	AutomationRootHierarcl
000-144Apr-007	csv14Nov29	CM5		Pending Registration	AutomationRootHierarcl
000-144Apr-008	csv14Nov30	MX 915		Pending Registration	AutomationRootHierarcl
000-CBA-986	616-152-21	CMSP		Pending Registration	AutomationRootHierarcl
000-CBA-987	Amr090	MX 915		Active	AutomationRootHierarcl
000-CBA-988	0	MX 915		Active	AutomationRootHierarcl

2. Select the checkbox and click on the device icon to open the device profile screen.

3. Go to **Device Profile -> Options -> Download Schedule -> Software and Parameters/Parameters only.**

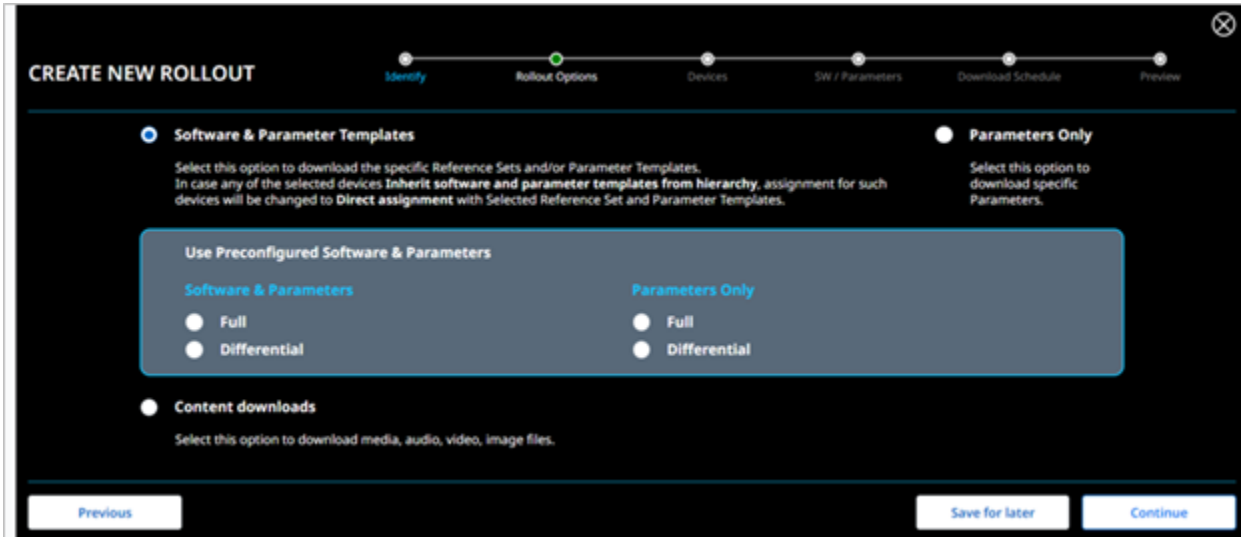

The screenshot shows the 'Device Profile' page for a device. It includes a device image, a 'Device Details' section with fields for Model, Serial # / Device ID, Device Status, Automation Enabled, Swap Enabled, and Verishield Encryption. A context menu is open over the 'Download Schedule' option, showing a sub-menu with 'Software and Parameters' and 'Parameters only' selected.
