Checkout Themes Editor

Overview

The **Checkout Themes** editor enables merchants to customize the layout and designs of the Verifone Central checkout page and update it with their logo, font styles and color options.

The checkout service offers merchants the possibility to customize the shopping cart experience (Hosted Payments Page, Payment Link, iFrame) using the Verifone Central Checkout Themes editor or via API. Verifone Central provides merchants with a friendly way to create their own checkout page and customize it with their logo and different colors. The checkout themes are created and stored, so they can be used by merchants in the Pay by Link or in the checkout itself.

Availability

This feature is available for Merchant Cashier and Merchant Supervisor roles.

Benefits

- Themes can be used by merchants to change the branding of the payment link or checkout page, so it matches their company guidelines
- Merchants are provided a page in which they can create/update/delete the shopping cart template
- Reduced complexity for merchants who do not use API
- Preview window to visualize the new theme
- Customize the look and feel of your checkout page by adding a logo and choosing a color pattern to match your company brand

Creating a Checkout Theme in Verifone Central

To create a new checkout theme in Verifone Central, follow these steps:

- 1. Log in to your Verifone Central account.
- 2. Navigate to?the **Administration**?tab and click on?the **Checkout Themes** section from the drop-down menu.?

6. Click on **Save theme** to save all your changes.

Mark a theme as default

Marking a theme as default allows you to automatically use it for your Checkout and Pay by Link pages without having to select it manually. You can override the default theme when creating URLs by specifying / selecting a custom theme.

Each organization can have its own separate default theme.

To make a Checkout theme as default select the **Make Default Checkout Theme** option, when creating a new theme or editing an existing one.

(3)

All Checkout themes marked as default can be seen under the Default Theme column.

Delete a checkout theme

If you decide you want to delete a checkout theme that you have created, press the **Delete** button.

On clicking the *Delete* button, a "Delete my new theme?" pop-up window will appear showing the warning message: *"If this theme is assigned to one or more of your organizations, your default theme will be used after deletion"*. After clicking the **Delete** button, your theme will be deleted permanently. Your theme will not be able to be used again.

Create a checkout theme via Checkout API

To create a checkout theme via the checkout API, visit our <u>API documentation</u>.
