

Create a New Batch for Rollout

The **Rollouts** feature has an option to create another new batch for the existing Rollout. A single Rollout can have multiple batches.

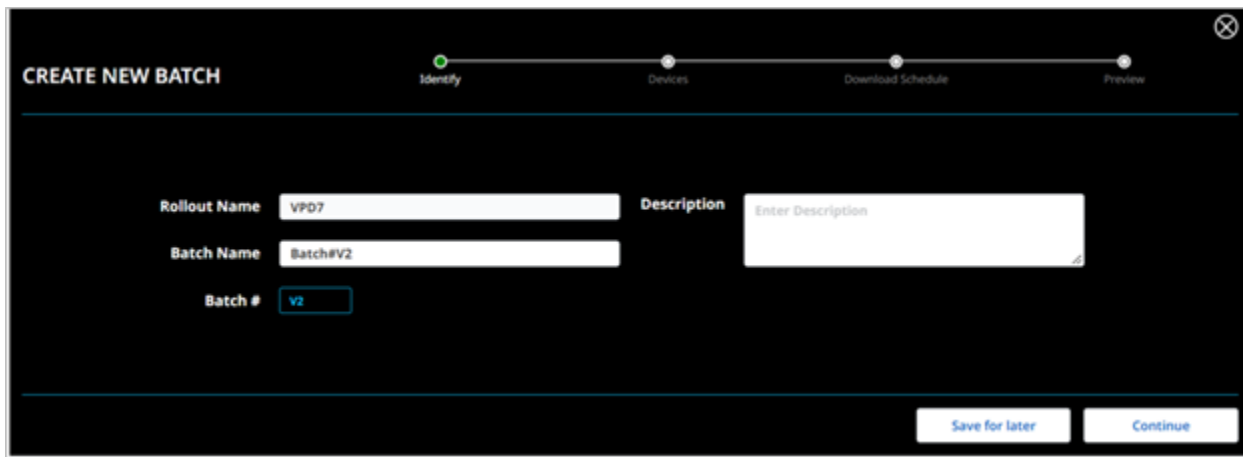

To create a new batch for the existing Rollout.

1. Go to **Verifone Central** -> **Device Management** -> **Rollouts**
2. Select the Rollout under which you want to create a new batch.

Actions -> **Start New Batch.**

The screenshot shows the 'Rollouts' dashboard in the Verifone Central interface. At the top, there are navigation tabs: Device Management, Reports, Administration, and Help & Support. Below these, the 'Rollouts' section is displayed with a 'PRE-SIT 1.22.1.1' status indicator. The dashboard features five summary cards: FAILED (0), SUCCESSFUL (0), IN PROGRESS (0), NOT YET STARTED (0), and SUCCESS RATE (0%). Below these cards, there is a 'Start new batch' button and a table titled 'ROLLOUTS DASHBOARD : Rollout_2057'. The table has columns for Batch Name, Batch Version, Start Date, End Date, Status, Total, Success, Failed, In Progress, and Failed To Process. A single row is visible for 'Rollout_2057' with a status of 'Completed'.

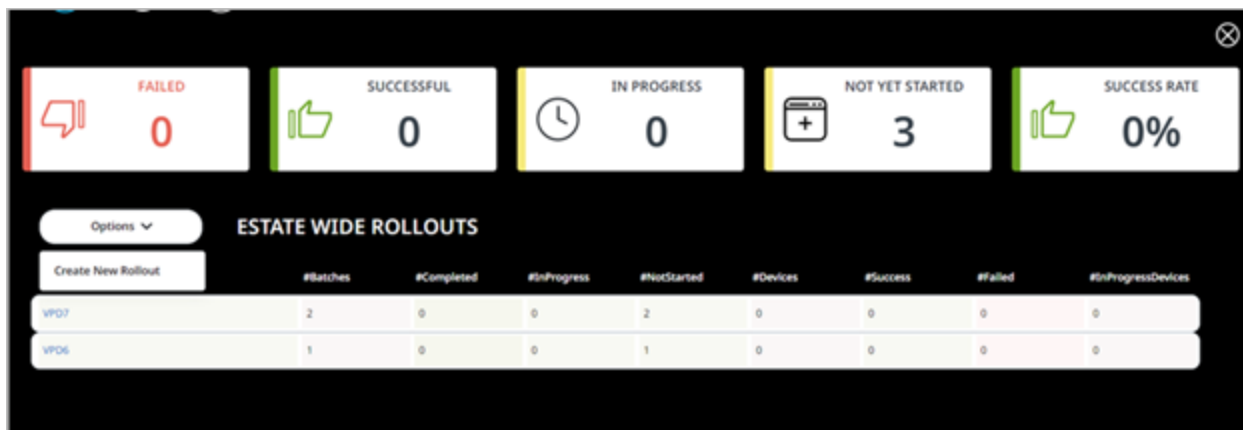

The screenshot shows the 'CREATE NEW BATCH' form. At the top, there is a progress bar with four steps: Identify (active), Devices, Download Schedule, and Preview. The form fields are as follows:

- Rollout Name:** VP07
- Description:** Enter Description (text area)
- Batch Name:** Batch#V2
- Batch #:** V2 (dropdown menu)

 At the bottom right, there are two buttons: 'Save for later' and 'Continue'.

The flow is similar to creating a Rollout. Refer to Create a Rollout for Single/Multiple Devices section for further steps.

The new batch that is created for the existing Rollout is reflected in the Estate Wide Rollouts screen.
