Create a New Batch for Rollout

The **Rollouts** feature has an option to create another new batch for the existing Rollout. A single Rollout can have multiple batches.

To create a new batch for the existing Rollout.

- 1. Go to Verifone Central -> Device Management -> Rollouts
- 2. Select the Rollout under which you want to create a new batch.

Actions -> Start New Batch.

CREATE NEW BATCH	0 Identify	Devices	Download Schedu	le	Preview.	8
Rollout Name	VPD7	Description	Enter Description			
Batch Name Batch #	Batch#V2				\$	
				Save for later	Continue	

The flow is similar to creating a Rollout. Refer to Create a Rollout for Single/Multiple Devices section for further steps.

The new batch that is created for the existing Rollout is reflected in the Estate Wide Rollouts screen.
