

Import & Merge File

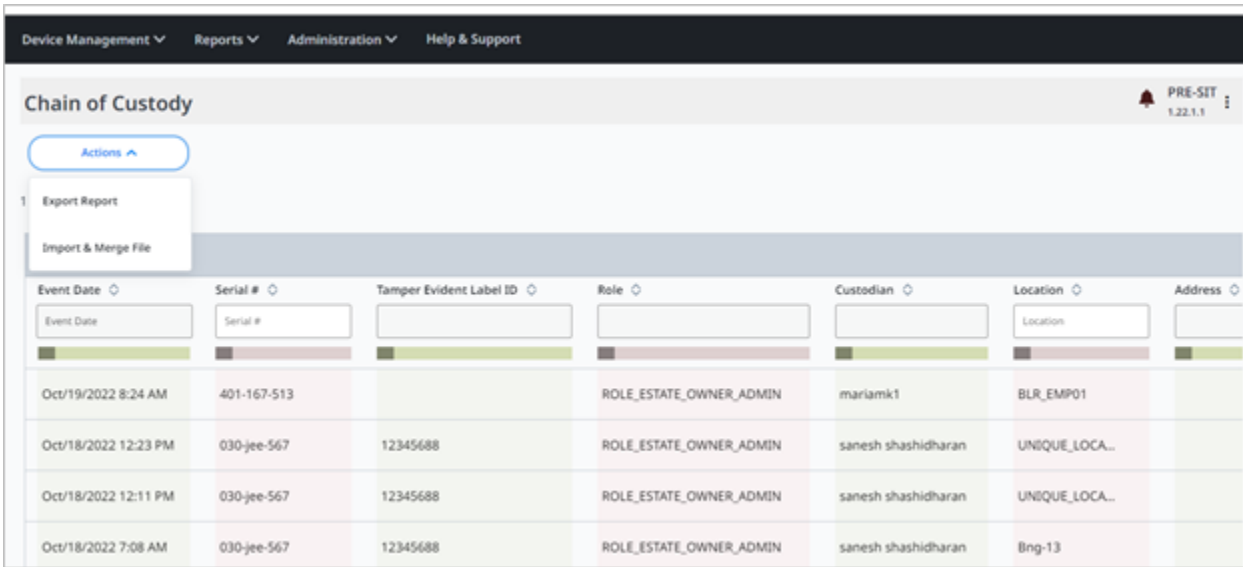

Import & Merge File

This feature is used to bulk onboard the device details on Device Management through CSV file using **Import and Merge File** option. The fields can be saved as a template which can be used for bulk upload.

Save As Template option is used to save the existing data fields as a template, details are filled and uploaded on Device Management using **Import and Merge File** option.

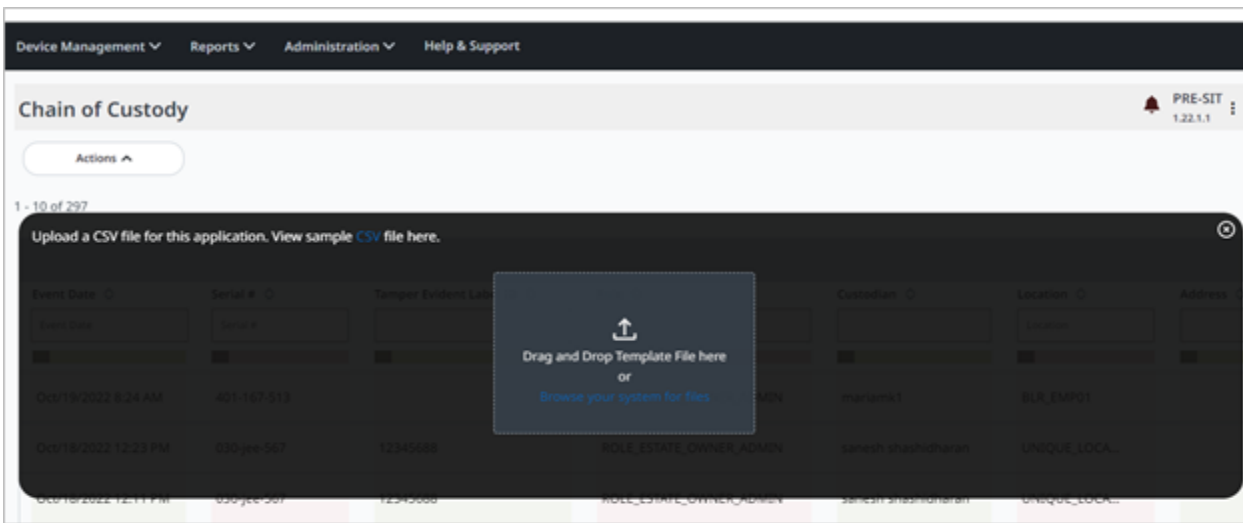

To onboard the Device Details for bulk upload on Device Management.

1. Go to **Device Management -> Reports -> Chain of Custody -> Actions -> Import & Merge File.**

2. **Drag and Drop Template File here** screen is displayed.

3. Click **Drag and Drop Template File here** to browse and upload a file or Drag and Drop the file to upload.
