

## Add Location

To add a location.

1. Go to **Device Management** -> **Locations** -> **Select +** Icon.

The screenshot shows the 'Locations' page in the Verifone system. At the top, there are navigation tabs: Device Management, Reports, Administration, and Help & Support. The page title is 'Locations' with a 'PRE-SIT 1.22.1.1' indicator. Below the title, there is a search bar and a filter dropdown set to 'Actions'. A table lists existing locations with columns for Type, Name, Address, Status, Modified By, and Modified Date. An 'Add' button is visible in the top right corner of the table area.
