

Hierarchies

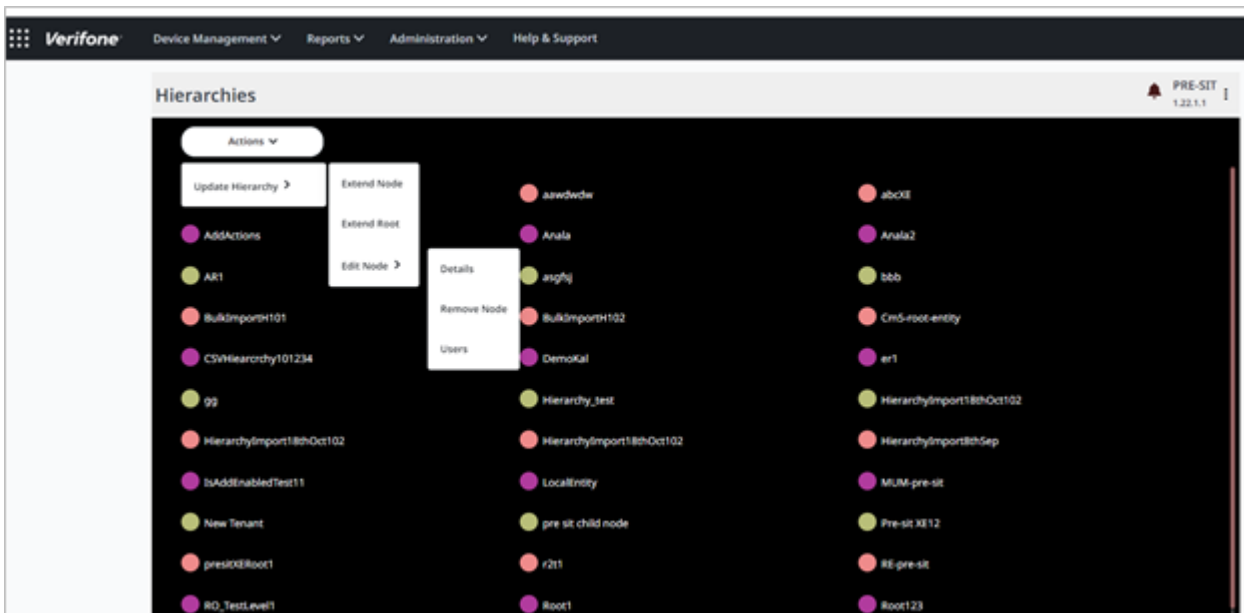

Follow the option sequence below to view the Hierarchy landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management -> Hierarchies

Select Actions

Follow the option sequence below to view the Hierarchy landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management-> Hierarchies -> Extend Node

The screenshot shows the 'Extend: abcXE2' form. It has a title bar with a close button. Below the title bar, there's a section 'Enter Node Details' with a horizontal line. The form contains several input fields: 'Name' (mandatory), 'IP Start', 'IP End', 'Location', 'Time Zone' (dropdown), and 'Entity Type' (dropdown). A legend at the bottom left indicates that a red border around the input fields 'Indicates Mandatory'. An 'Add to Node' button is located at the bottom right.

Name and Entity Type are the mandatory fields.

Follow the option sequence below to view the Hierarchy landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management -> Hierarchies -> Extend Root

The screenshot shows the 'Extend Root: PRE-SIT' form. It has a title bar with a close button. Below the title bar, there's a section 'Enter Node Details' with a horizontal line. The form contains several input fields: 'Name' (mandatory), 'IP Start', 'IP End', 'Location', 'Time Zone' (dropdown), and 'Entity Type' (dropdown). A legend at the bottom left indicates that a red border around the input fields 'Indicates Mandatory'. An 'Add to Root Node' button is located at the bottom right.

Follow the option sequence below to view the Hierarchy landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management -> Hierarchies -> Edit Node

Form fields and layout:

- Title: Edit Node: 99
- Fields: Name (99), IP Start, IP End, Location, Time Zone (dropdown), Entity Type (Merchant Site dropdown).
- Legend: Indicates Mandatory
- Button: Update Node

Follow the option sequence below to view the Hierarchy landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management -> Hierarchies -> Remove Node

Dialog box content:

- Title: Select a Parent / Node / or Sub Node to Delete
- Buttons: Continue, No, Yes
- Message: Hierarchy cannot be deleted if Users or Devices are associated to it or any of its child Hierarchies. Are you sure you want to continue?

Hierarchy feature provides the flexibility to allow/restrict the user at an entity level. This enables to view the existing users under a node, add new users, and delete existing users.
