

## Add Hierarchy to the Root Node

Follow the option sequence below to add hierarchy to the external node.

Select **Actions** -> **Update Hierarchy** -> **Root Node**.

The screenshot shows the 'Extend Root: PRE-SIT' form. The form has a title 'Extend Root: PRE-SIT' and a subtitle 'Enter Node Details'. It contains several input fields: 'Name' (with the value 'VHQ - Testing'), 'IP Start', 'IP End', 'Location', 'Time Zone' (with a dropdown arrow), and 'Entity Type' (with the value 'Merchant Site'). A legend indicates that a red border around the input fields 'Indicates Mandatory'. An 'Add to Root Node' button is located at the bottom right of the form.
