Updated: 09-Nov-2022

Users under the selected node can be viewed.

To add new users from the other node, select **Add users from other node**.

To delete an existing user(s) from the node, select **Unassign Users**.

Select the user checkbox and click **Unassign Users** to delete user(s) under the selected node.

NOTE: The node name and the total number of users are displayed. **Results per page** list box allows viewing the required number of records at a time.
