

Group Management

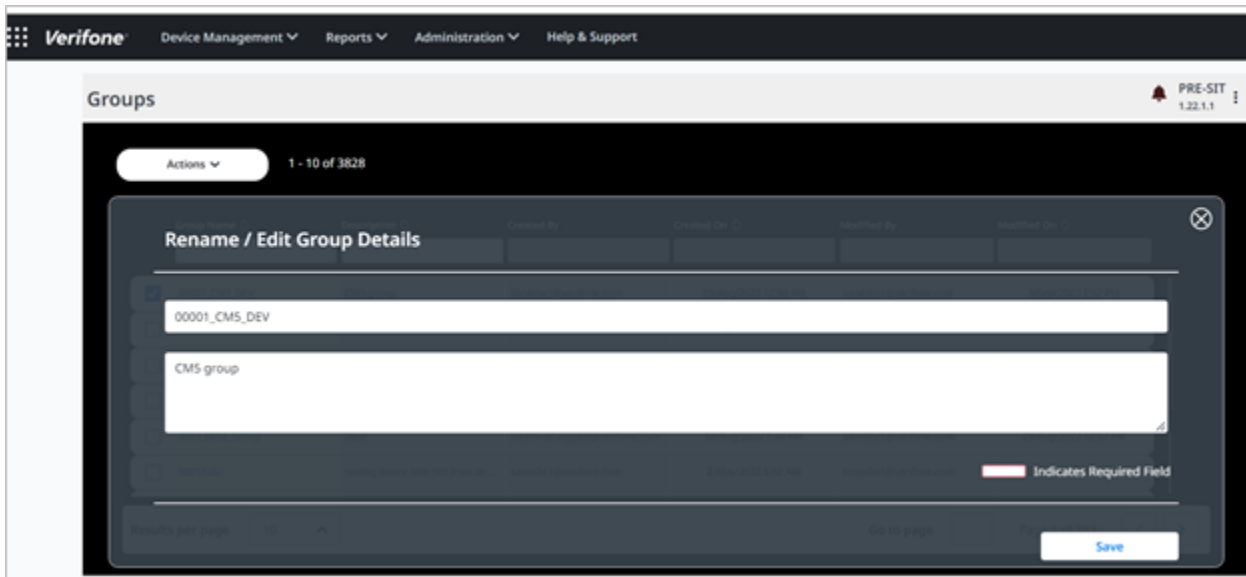

Group is another way of categorizing devices other than Hierarchies. The devices belonging to a group can also be assigned to a Hierarchy. **Groups** feature is used to perform operations on a specific group of devices. This feature allows you to configure **Groups**.

Follow the option sequence below to view groups on the landing page.

Verifone Central -> Device Management -> Hierarchy/Group Management -> Groups

Select **Actions** -> **Edit Group Details**

Select **Actions** -> **Delete Group**

Updated: 09-Nov-2022

Select **Actions** -> **Create Group**

The screenshot shows the Verifone web interface. At the top, there's a navigation bar with the Verifone logo and menu items: Device Management, Reports, Administration, and Help & Support. Below this, the 'Groups' section is active, showing a list of groups with a table header including Name, Created By, Created On, Modified By, and Modified On. A modal window titled 'Create a New Group' is open, featuring a 'Name' input field with a red border indicating it's required, and a larger 'Enter Description' text area. At the bottom of the modal, there's a legend indicating that a red border 'Indicates Required Field' and an 'Add' button. The background shows a table with 10 results per page and a 'Go to page' dropdown.
