

Content Rollout for Batch Devices

Follow the option sequence below to roll out a software/parameter/content download to a batch of devices.

Verifone Central -> Device Management -> Rollouts -> View Current -> Create New Rollout

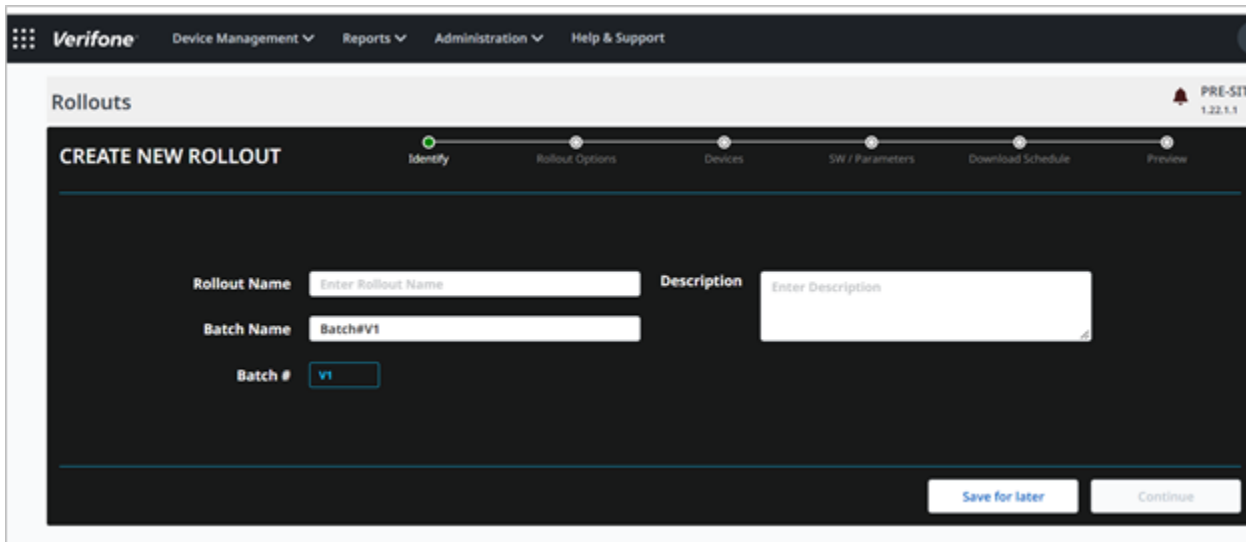

The dashboard shows the following summary:

- FAILED: 22
- SUCCESSFUL: 0
- IN PROGRESS: 1
- NOT YET STARTED: 1
- SUCCESS RATE: 0%

Below the summary is a table of rollouts:

Rollout ID	Category	Batches	Completed	In Progress	Not Started	Devices	Success	Failed	In Progress Devices
ROLLOUT20oct6pm	Content	1	0	1	0	1	0	0	1
Rollout_2057	Software	1	1	0	0	7	0	0	0

The 'CREATE NEW ROLLOUT' form includes the following fields:

- Rollout Name:** Enter Rollout Name
- Description:** Enter Description
- Batch Name:** Batch#V1
- Batch #:** V1

At the bottom of the form are two buttons: **Save for later** and **Continue**.

The rollout Name is uniquely provided by the user.

Batch Name is provided by the user, a rollout name can have several batch names.

The **Save for later** option will save the entries for later stages.

The 'Rollout Options' step shows three main options:

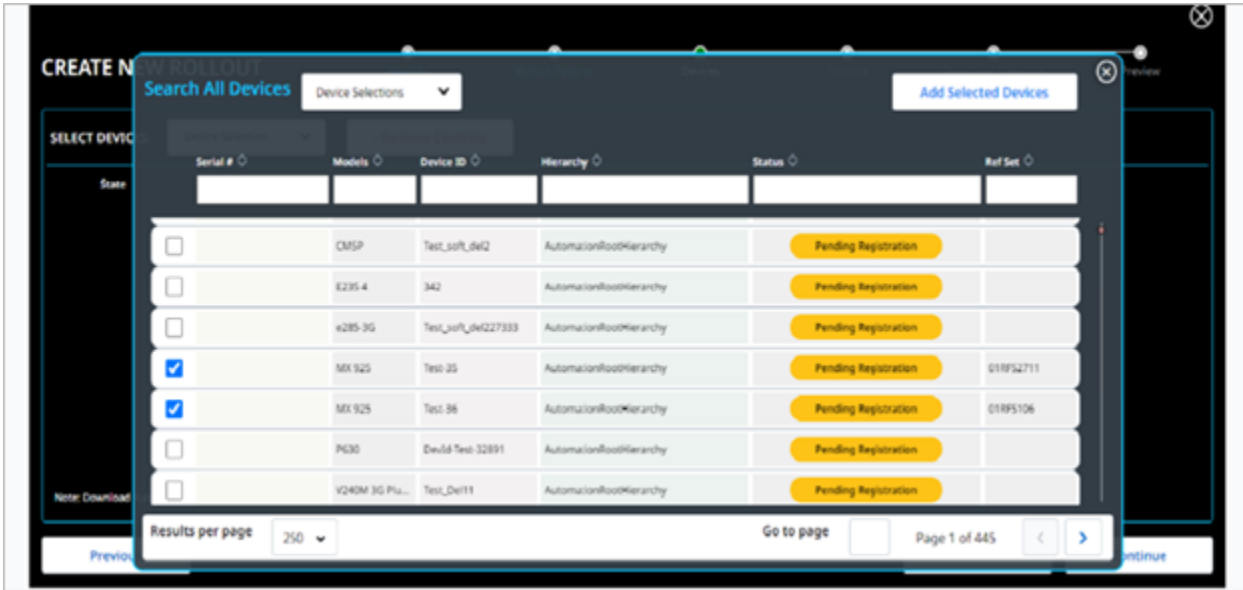

- Software and Parameter Templates:** Select this option to download the Reference Sets and/or Parameter Templates. In case any of the selected devices inherits software and parameter templates from hierarchy, assignment for such devices will be changed to Direct assignment with Selected Reference Set and Parameter Templates.
- Parameters Only:** Select this option to download Parameters.
- Content Downloads:** Select this option to download media, audio, video, image files. (This option is highlighted with a yellow box in the image.)

Each option has sub-options for 'Full' and 'Differential'.

Updated: 09-Nov-2022

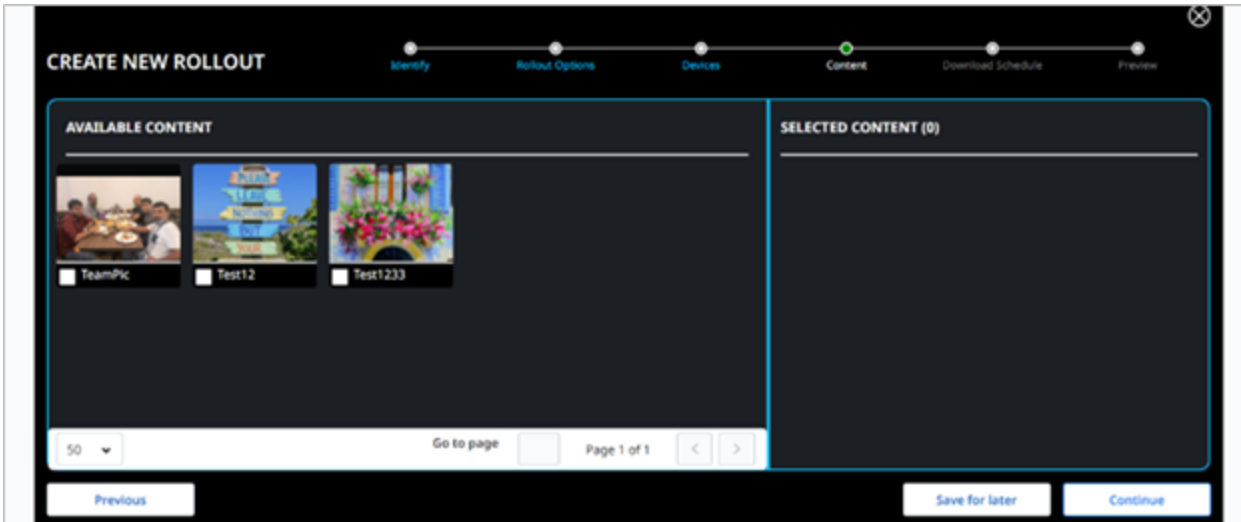

Select **Content Downloads**.

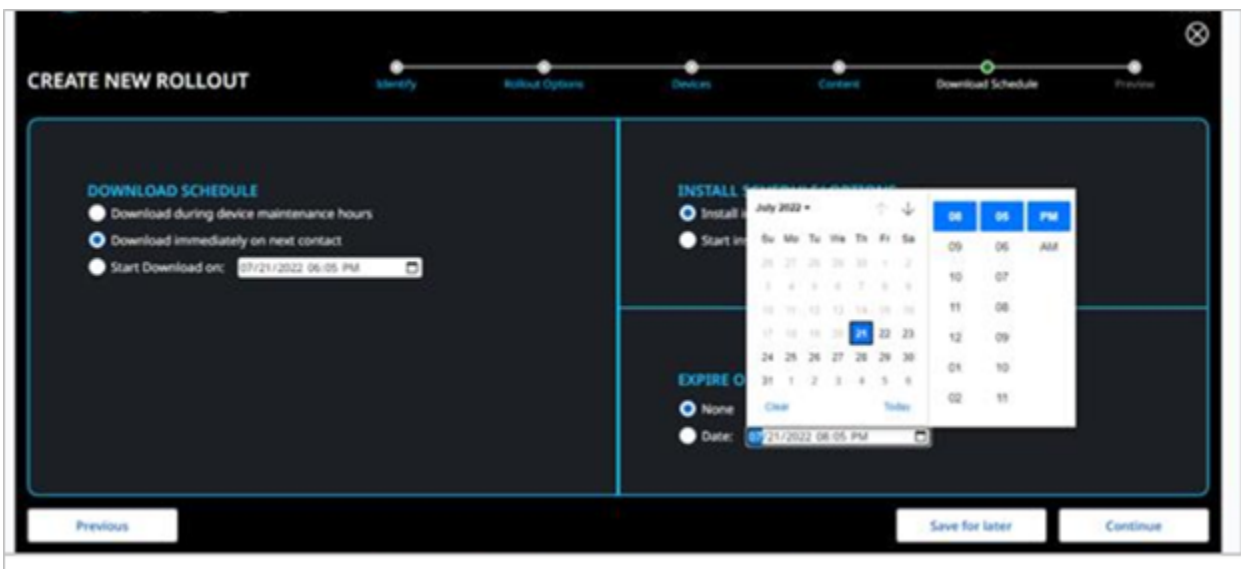

The **Device Selections** option results screen is enhanced to display the results with additional details like the number of available records, total pages, and the current page number. It also provides an option to navigate to the desired page.

When the selected device is already scheduled for Rollout then the Remove conflict button is enabled. Click the **Remove Conflict** button to remove the conflict and continue.

Select the content.

Schedule for download.
