Updated: 09-Nov-2022

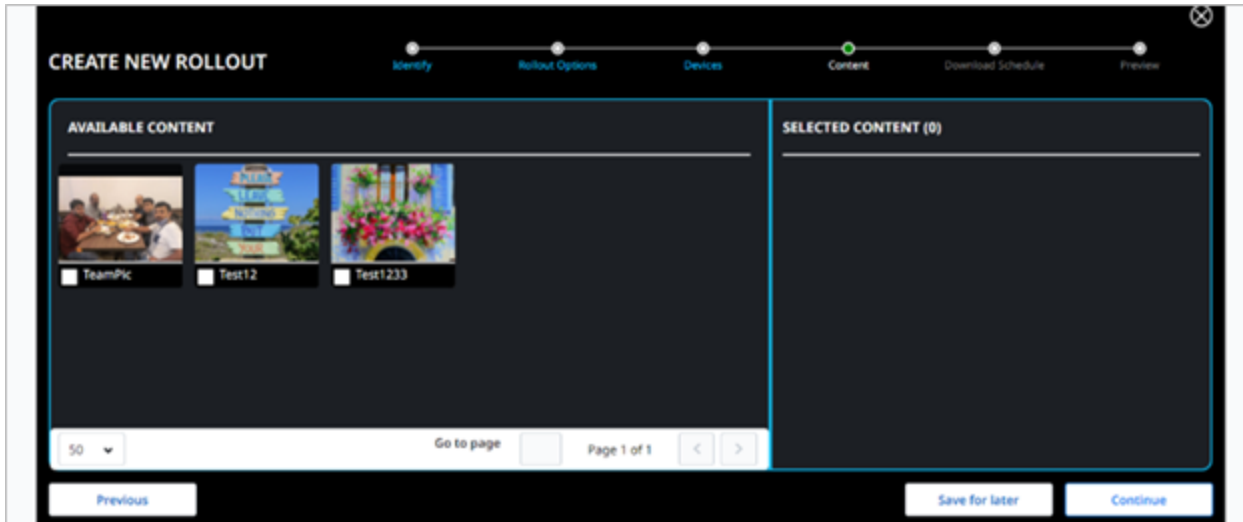

Select **Content Downloads**.

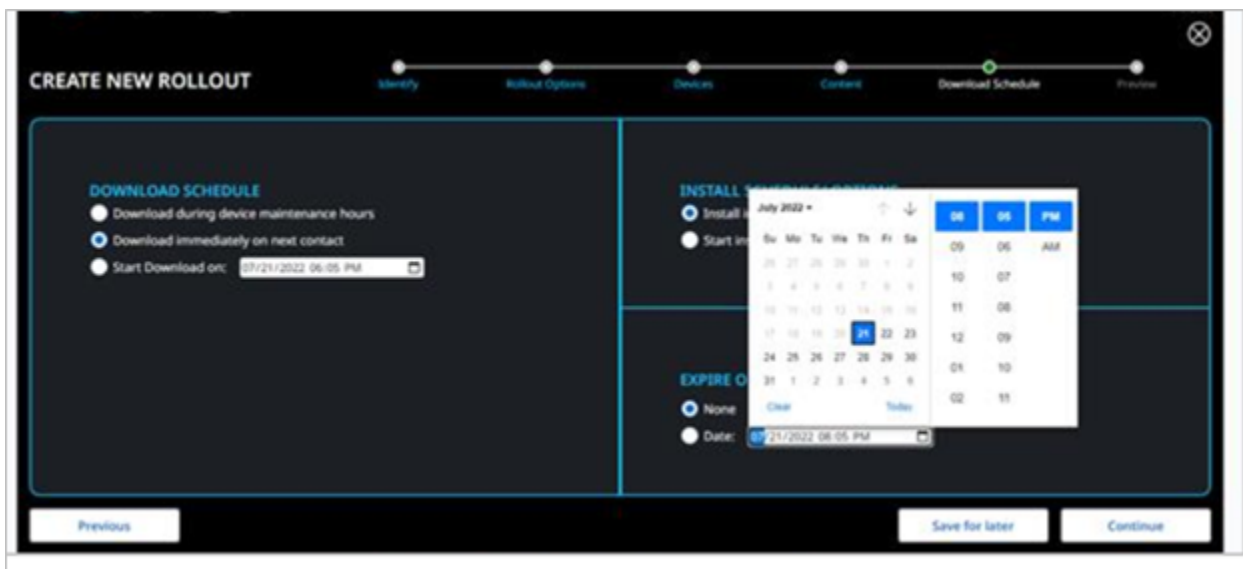

The **Device Selections** option results screen is enhanced to display the results with additional details like the number of available records, total pages, and the current page number. It also provides an option to navigate to the desired page.

When the selected device is already scheduled for Rollout then the Remove conflict button is enabled. Click the **Remove Conflict** button to remove the conflict and continue.

Select the content.

Schedule for download.
