

To view/edit basic/advanced parameters for a single device

Follow the option sequence below to view and edit the basic parameters on the Device Details landing page.

Verifone Central -> Device Management -> Devices -> Device Details -> Details -> Parameters

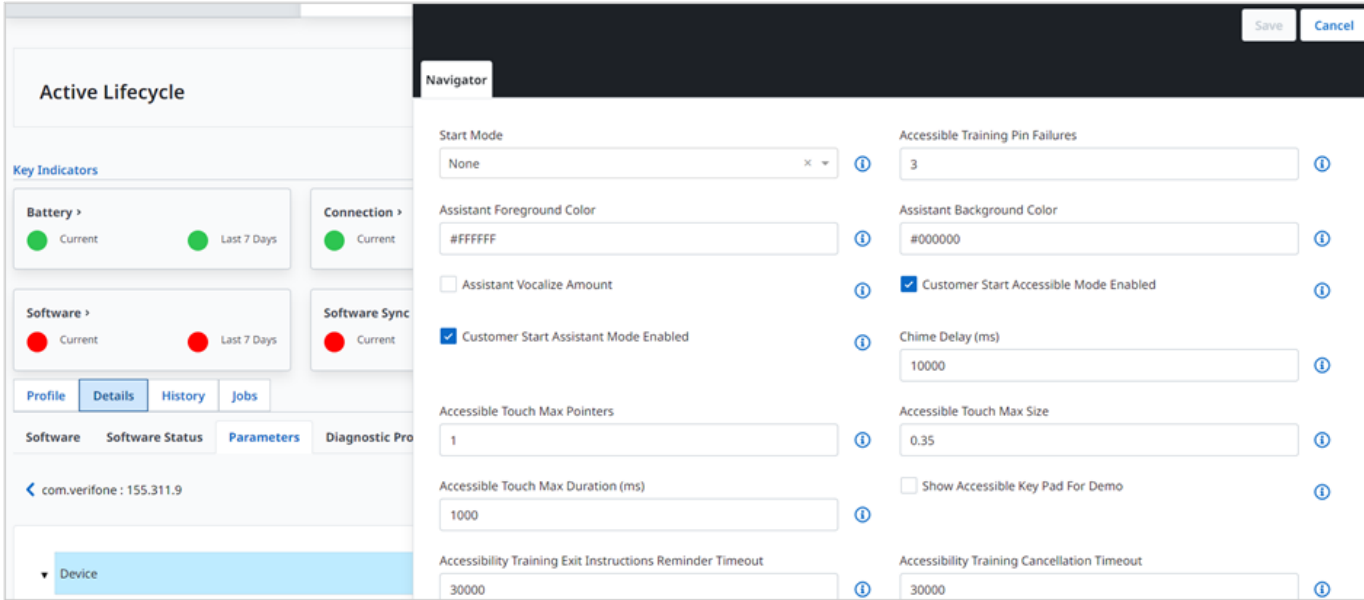

Parameter Management feature supports two levels in basic and five levels in advanced parameter configuration.

NOTE: A warning message is displayed when there is an error in the uploaded VPFX file. Select the **Restore Default** button to revert to the old configuration.
