

Verifone X990

Overview

The Verifone X990 is a thin, lightweight, portable smart device featuring the latest Verifone Android 10.x operating system. Benefits from uncompromised security and platform scalability for seamless system integrations that meet your business needs. Equipped with the fastest mobile 4G communications, the X990 stays connected to your business, your customers, and your service providers while the rich software platform enables the creation of revenue-building applications like loyalty, couponing, inventory management, online bookings, and more.

Benefits

- 1D/2D Barcode scanner, front, and rear cameras perfect for scanning QR codes and coupons
- Supports third-party applications
- Long battery life and standby time
- Flexible connectivity options including 4G LTE, WiFi, and Bluetooth®
