

3DS Contracts

Overview

In some countries or regions, the local legislation requires the implementation of an additional authentication step for any online transaction. In such cases, as a merchant, you are required to add an extra level of security for your shoppers by using the 3DS security protocol. To be able to activate 3DS for your shoppers, you need a 3DS contract, that will be set up for you by a Verifone representative, and a 3DS Contract ID, that will be automatically generated through Verifone Central.

You can view all the 3DS agreements that you set up for your shoppers on the 3DS page in Verifone Central. Your 3DS contract enables you to set up a 3DS authentication for each of your transactions.. For additional information on 3-D Secure and its benefits, read [3-D Secure](#).

Availability

The 3DS Contracts feature is available to all users for viewing, except for those with the Merchant Partner role. Only a Verifone representative can create or edit a new 3-D Secure contract or delete an existing one. For more information, see the [Users and merchants roles](#) documentation.

Benefits

This feature provides the following benefits:

- Allows you to view the 3DS Contract ID set up for your 3-D Secure contract in a fast and accessible way.
- Allows you to browse through several 3DS Contracts for each of your payment processes.

For additional information on the EMV® 3-D Secure and its benefits, read [3-D Secure](#).

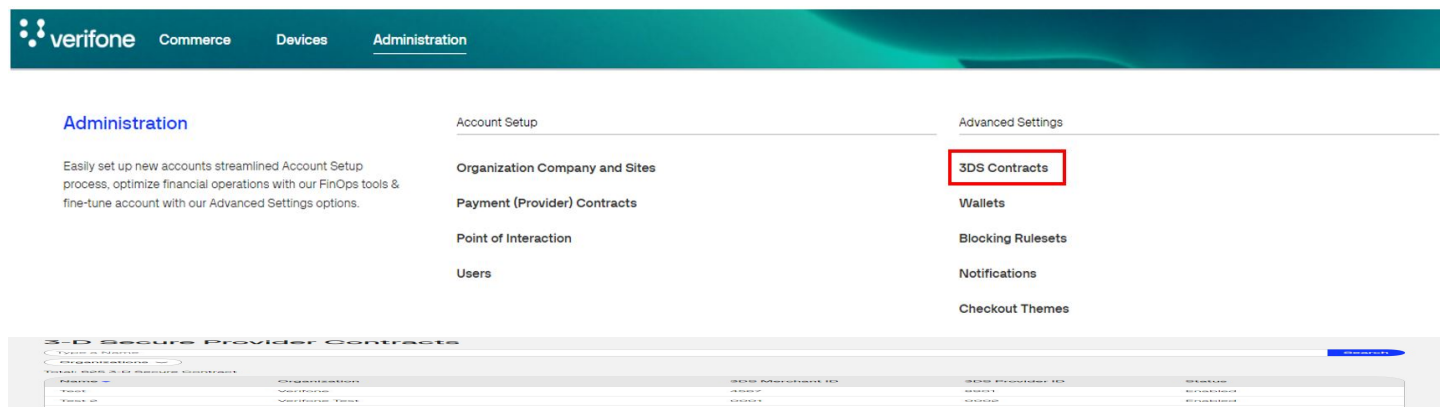

Viewing 3DS Contracts

To view this page, select **Administration > 3DS Contracts** from the top menu.

To enable 3-D Secure, a 3DS Contract needs to be created beforehand. The **3DS Contract ID** is required in the Checkout configuration or in the Server-to-Server integration.

If you are operating in a region that requires Secure Customer Authentication (SCA), Aa 3DS contract is required to accept customer-initiated transactions. For more information, read the [Strong Customer Authentication \(SCA\)](#) and [3-D Secure](#) documentation.

To set up a 3DS Contract for your organization, you need to get in touch with a Verifone representative.

The screenshot shows the Verifone Central Administration interface. The top navigation bar includes 'verifone', 'Commerce', 'Devices', and 'Administration'. The 'Administration' section is expanded, showing a sidebar with 'Administration' (selected), 'Account Setup', 'Organization Company and Sites', 'Payment (Provider) Contracts', 'Point of Interaction', and 'Users'. The main content area is titled '3-D Secure Provider Contracts' and contains a table with columns for 'Contract ID', '3DS Merchant ID', '3DS Provider ID', and 'Status'. The '3DS Contracts' link in the sidebar is highlighted with a red box.

Updated: 02-May-2024

To search for a specific 3DS contract, use the search bar to look for a contract by name or to filter the list of contracts by organization.

Click any row in the table to view additional details of a specific 3DS Contract.
