

3DS Contracts

Overview

3-D Secure is an extra authentication step which can be requested by you from your shoppers during the Checkout flow. To enable 3-D Secure functionalities, a 3DS Contract needs to be created. The 3DS Contract ID will be needed in the Checkout configuration or Server-to-Server integration.

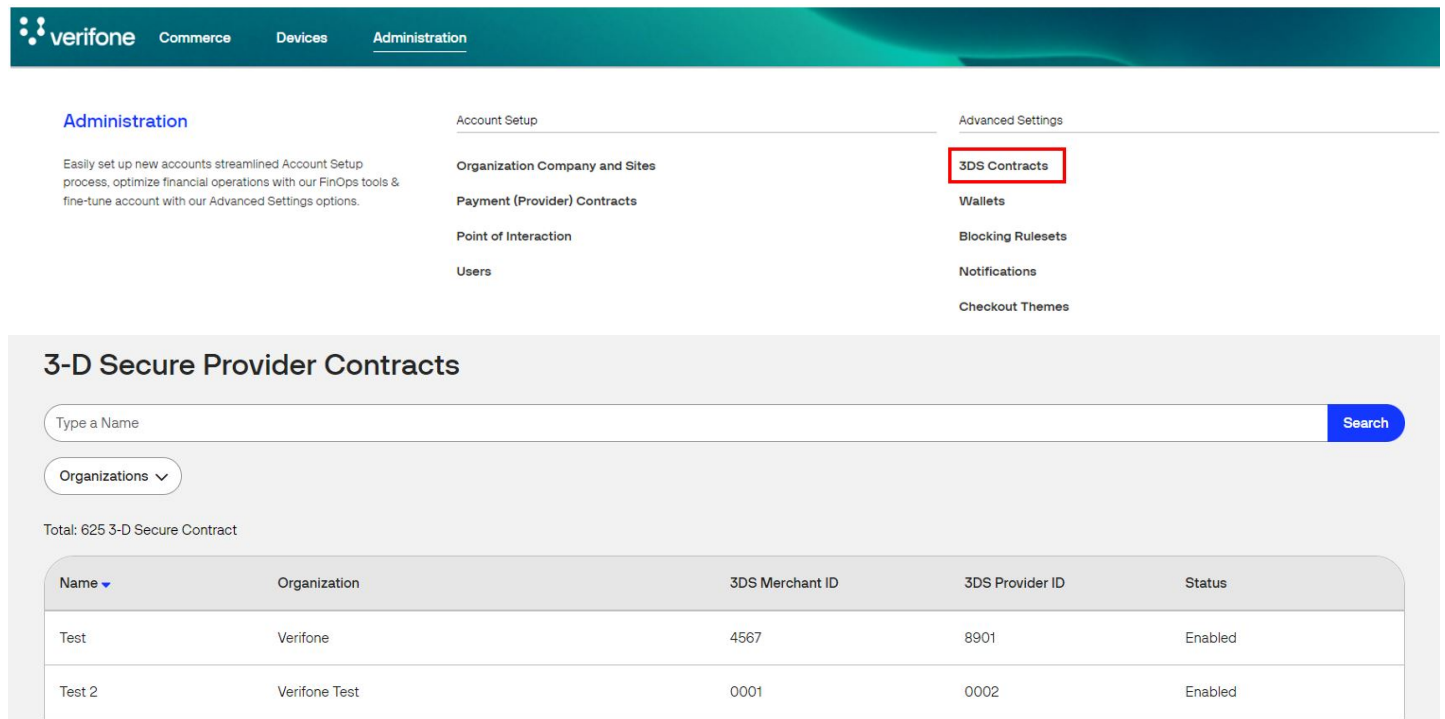

When required, a Verifone representative will set up the 3DS Contract for your organization. For additional information on 3-D Secure and its benefits, read [3-D Secure](#).

Availability

The 3DS Contracts feature is available to all users for viewing (read access), except for those with the Merchant External Partner role. Only a Verifone representative can create or edit a new 3-D Secure contract entity or delete an existing one.

Viewing 3DS Contracts

To view this page, select **Administration > 3DS Contracts** from the top menu.

The screenshot shows the Verifone Administration interface. The top navigation bar includes 'Commerce', 'Devices', and 'Administration'. The 'Administration' section is expanded, showing a list of options: 'Account Setup', 'Organization Company and Sites', 'Payment (Provider) Contracts', 'Point of Interaction', 'Users', 'Advanced Settings', '3DS Contracts' (highlighted with a red box), 'Wallets', 'Blocking Rulesets', 'Notifications', and 'Checkout Themes'.

Below the navigation bar, the '3-D Secure Provider Contracts' page is displayed. It features a search bar with the placeholder text 'Type a Name' and a 'Search' button. Below the search bar is a dropdown menu labeled 'Organizations' with a downward arrow. The page indicates 'Total: 625 3-D Secure Contract'.

Name	Organization	3DS Merchant ID	3DS Provider ID	Status
Test	Verifone	4567	8901	Enabled
Test 2	Verifone Test	0001	0002	Enabled

Use the search bar to look for a 3DS Contract by its name or filter the list of contracts by organizations.

Click any row in the table to view additional details of a specific 3DS Contract.

The screenshot shows the details of a specific 3DS Contract. The page is titled '3-D Secure Provider Contracts' and '3DS Contract'. It is divided into two main sections: 'General information' and 'Technical details'. The 'General information' section includes fields for 'Contract ID', 'Organization ID', 'Merchant ID', and 'Provider ID'. The 'Technical details' section includes fields for 'Contract ID', 'Organization ID', 'Merchant ID', and 'Provider ID'.

The **3DS Contract ID** can be easily copied for use in [Checkout API](#) or [3D Secure API](#) integrations.

When submitting 3DS authenticated payments, make sure **the 3DS Contract ID and the Payment Provider Contract ID that you are using are associated with the same Organization ID.**
