

Searching Transactions

Searching transactions from Shopify in Verifone Central

1. After opening an order in your Shopify admin, scroll down to the **Timeline** section.

The screenshot shows the 'Timeline' section of an order in Verifone Central. At the top right, there is a 'Show comments' checkbox which is checked. Below this is a comment input area with a placeholder 'Leave a comment...', a 'Post' button, and icons for emojis, mentions, hashtags, and attachments. A note states 'Only you and other staff can see comments'. The timeline itself is dated 'February 27' and contains five entries, each with a timestamp of '10:17 AM':

- Order confirmation email was sent to Test Test (test2@test.com). Includes a 'Resend email' button.
- A kr1.00 DKK payment was processed on Verifone Checkout. Includes a right-pointing arrow.
- Confirmation #KCZDGQMAL was generated for this order.
- Test Test placed this order on Online Store (checkout #36651691278637).

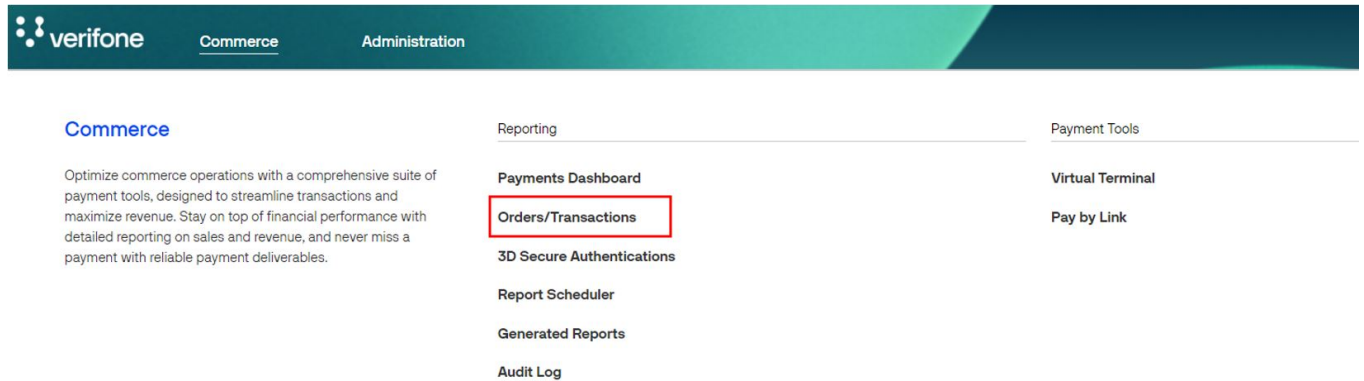

2. Find and click to expand on the line confirming "payment was processed on Verifone Checkout".

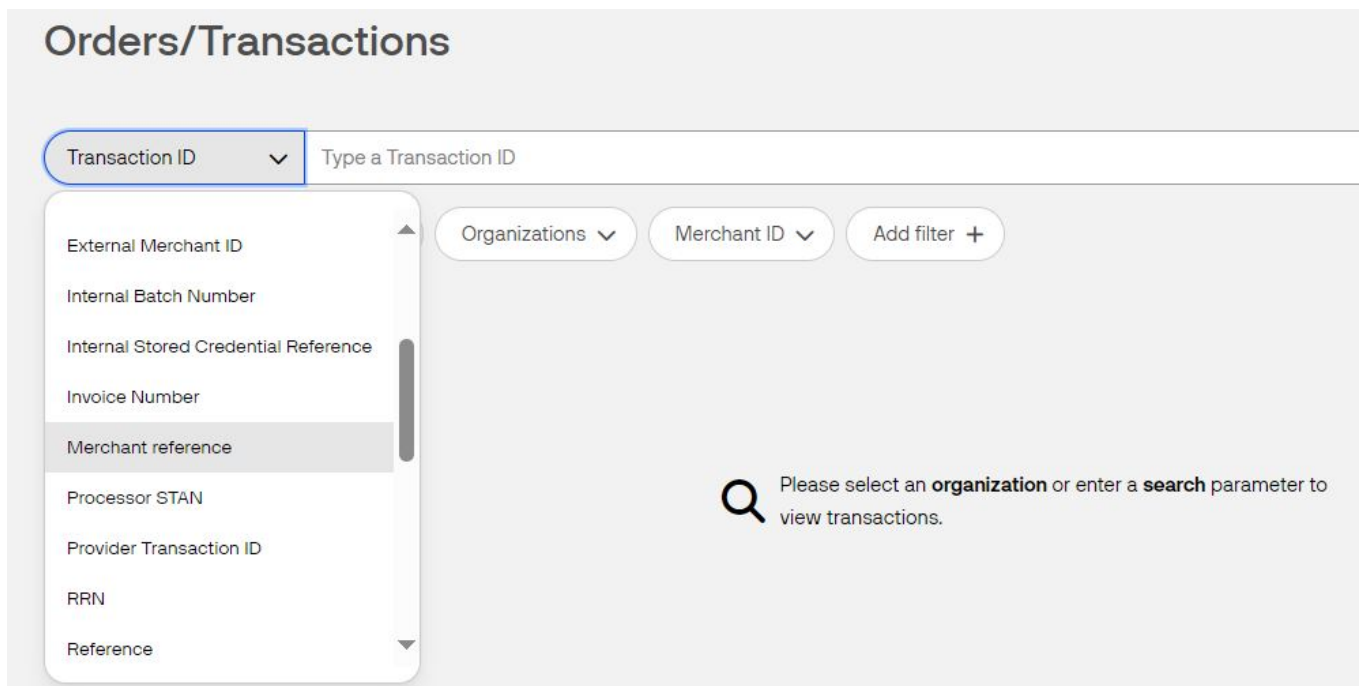

This screenshot shows the expanded view of the payment transaction from the previous screenshot. It includes the following details:

- Order #1022**
- Amount:** kr1.00
- Gateway:** Verifone Checkout
- Status:** success
- Type:** sale
- Created:** Feb 27, 2023, 10:17 am
- Information from the gateway:**
 - Payment:** rEuEtA3v3n6qoiCY35boeM3Qq

3. Click to expand on **Information from the gateway** and copy the ID displayed under *Payment* indicator.
4. Log into your Verifone Central Account and navigate to **Commerce** -> *Reporting* -> **Orders / Transactions**.

5. Click the *Transaction ID* filter to expand the dropdown located next to the search input, then select **Merchant reference**.

6. Paste the reference copied earlier into the search input box.

Modify the date range to fit the one of your transactions, then click the **Search** button.
