

## Installation

Follow these steps to install the Magento 2 plugin:

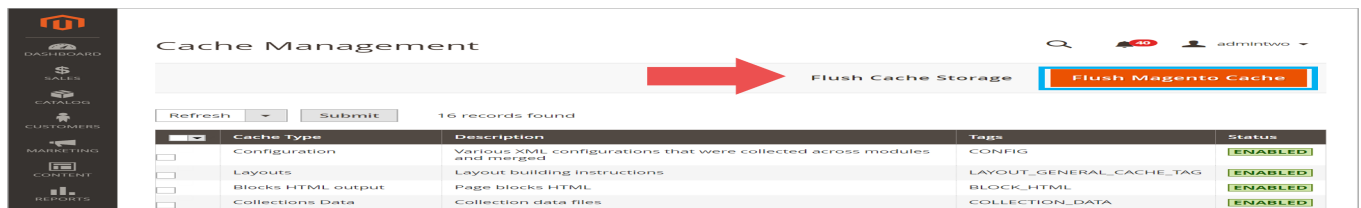

1. Download the latest release from the [Verifone Payment Module table](#) at the bottom of this page and extract the archive.
2. Upload the included **Verifone** directory to 'app/code/' under your Magento root directory on your server.
3. Upload the files to your server, to your instance of Magento 2. Each file must be uploaded to the correct directory.

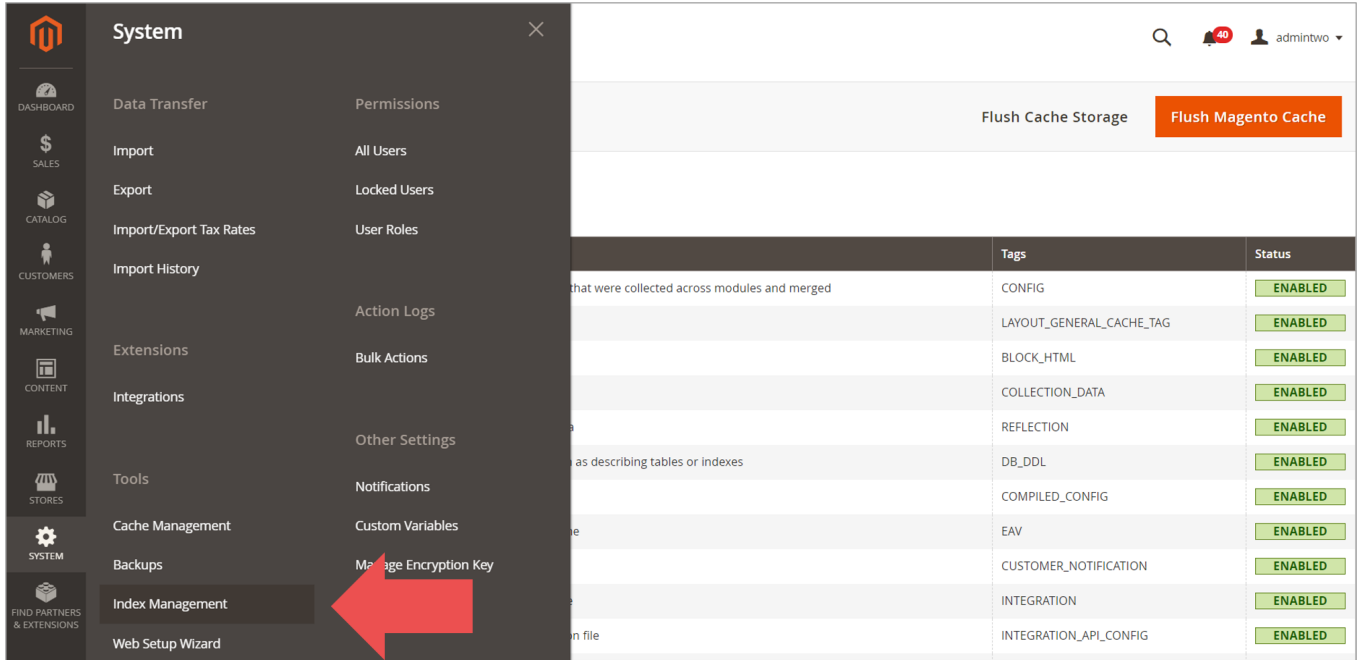

4. Install the module by running `bin/magento setup:upgrade` and `bin/magento setup:di:compile`.
5. Log in to your Magento 2 administration panel and navigate to *System* → *Cache management*.

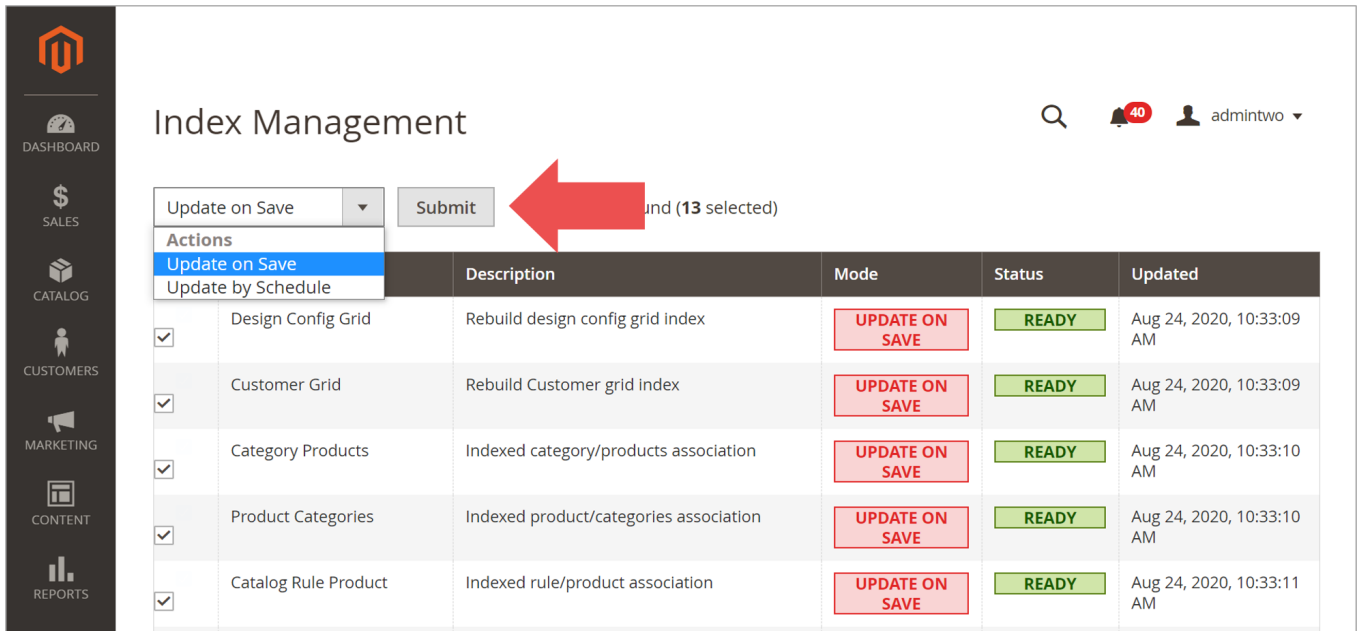

6. On the **Cache management** page, click on the **Flush Magento cache** button.

7. Go back to the **System** tab and select **Index Management**.

8. On the **Index Management** page, select the **Update on save** option and click on the **Submit** button to re-index all templates.

Once the installation is complete, make sure to [configure the Verifone settings](#).

## Download the Verifone Payment Module

Release date	Build	Release notes
2024-11-26	<a href="#">verifone-magento2-v2.6.3.zip</a>	<ul style="list-style-type: none"><li>• Add support for PHP 7.3</li><li>• Add feature to create invoice automatically</li></ul>
