# Capturing an authorization

# Overview

A capture on an authorization places a hold on a payment.

Usually, the full authorization amount is captured; however, it's also possible to capture a smaller amount - the remaining part of the authorization will then need to be canceled; or, by using multiple partial capture you will be able to capture multiple smaller amounts until the authorization amount is reached or when the remaining authorized part is cancelled. This step triggers the process to capture the funds to the merchant resulting in clearing and settlement.

You can perform a capture through the <u>API</u> or through <u>Verifone Central</u>. Captures can only be completed on transactions with the status AUTHORIZED.

# Capturing an authorization via the API

Payment methods, which automatically capture as part of authorization (or where **capture==true**), do not need to be captured. If immediate or delayed auto-capture is enabled, calling the capture method is **not** necessary.

Required parameters:

- id Example: 76944d4b-89e6-48d2-ac04-675383c3eedf
  - Original transaction ID to capture authorization.
- amount string (Amount Simple Type) <= 32 characters ^((-?[0-9]+)|(-?([0-9]+)?.+))\$
  - $\circ$  The value, which can be anything from:
    - An integer. For currencies that are not typically fractional, such as JPY.
    - A three-place decimal fraction. For currencies that are subdivided into thousandths, such as TND.
    - An eight-place decimal fraction. For currencies such as Bitcoin.
    - For the required number of decimal places for a currency code, see ISO 4217.
- final\_capture boolean: true/false
- capture\_sequence\_number number
  - Incremental, it will always start with 1
  - Maximum allowed value is 99
- capture\_sequence\_count number
  - $\circ\,$  Incremental, it will always start with 2  $\,$
  - Maximum allowed value is 99

The final\_capture, capture\_sequence\_number and capture\_sequence\_count parameters are **only** mandatory for **multiple partial capture**.

Send POST/transactions/{id}/capture:

```
{
"amount": "20.50",
"id": "1234",
"initiatorTraceId": "000001",
"referenceId": "200211654321",
"createdDateTime": "2019-02-24T05:19:12Z",
"online": true
}
```

**Response example:** 

```
{
   "id": "76944d4b-89e6-48d2-ac04-675383c3eedf",
   "status": "AUTHORIZED",
   "createdAt": "2020-07-19T19:35:36Z",
   "reversalStatus": "NONE",
   "response": "SUCCESS",
   "responseCode": "0000",
   "responseMessage": "string",
   "acquirerResponseCode": "stri",
   "poiUid": "0e0357d7-8c7f-49ac-b07f-3db112be3126",
   "poiId": "652314",
   "merchantId": "765231"
}
```

### Capturing an authorization via Verifone Central

To perform a payment action (capture) you should have a Merchant Supervisor role.

#### **Full capture**

1. Log in to Verifone Central and go to the Order / Transaction page and select the Orders view.

Commerce

#### Commerce

Optimize commerce operations with a comprehensive suite of payment tools, designed to streamline transactions and maximize revenue. Stay on top of financial performance with detailed reporting on sales and revenue, and never miss a payment with reliable payment deliverables. Reporting

**Payments Dashboard** 

Orders/Transactions

**3D Secure Authentications** 

Report Scheduler

**Generated Reports** 

Audit Log

2. Select the *Transaction ID* from the drop-down menu and type in the transaction ID in the search bar or select the needed transaction from the transactions list, once the required filters are applied.

Table View:

7/3/2025, 12:53:51	-	ORDER-1234	-	Verifone

#### **Multiple Partial Capture**

Multiple partial captures from Verifone Central enables split shipments for initial authorized transactions. This feature allows to perform partial captures until the full transaction amount is reached. For more information, check also the <u>Supported Acquirers</u> documentation.

Once a partial capture has been performed, you can execute the **Void** and **Refund** actions on the captured amounts, adhering to the rules allowed by the processor. The feature also includes a **reversal** action, enabling scenarios where the total authorized amount (e.g., \$100) is managed as partial captures (e.g., \$25 + \$25) and a reverse hold (e.g., \$50).

1. When selecting the **Partial** option, a total number of partial captures must be entered.

Table View:					
Orders Trans	actions				
Search or Filter:					
Transaction ID	~	Search		$\supset$	
Created: 7/3/2025	00:00 - 23:59 🗸	Organizations (+1) 🗸	Merchant ID 🗸		
Add filter +					
Total: 35 orders					
Created <sup>▲</sup>	Reference	Merchant Reference	Organization	Product	Orig. amount
7/3/2025, 14:52:56	2507031556	511918242	Verifone	Visa	74.82 USD

The limit of partial captures must be between 2 and 99 captures.

2. For each capture a maximum value is listed below the *Amount* field. The maximum amount will increasingly decrease after each capture.

Enter the amount to be partially captured and select Capture Partial Payment.

Total: 35 orders

Created <sup>▲</sup>	Reference	Merchant Reference	Organization	Product	Orig. amount
7/3/2025, 14:52:56	2507031556	511918242	Verifone	Visa	74.82 USD
7/3/2025, 14:48:29	2507031554	511918239	Verifone	Visa	47.39 USD
7/3/2025, 14:32:02	2507031552	511918236	Verifone	Visa	47.39 USD
7/3/2025, 14:13:10	2507031550	511918233	Verifone	Visa	12.27 USD
7/3/2025, 14:11:42	2507031548	511918230	Verifone	Visa	10.07 USD
7/3/2025, 07:01:40	25070332102	90140000	Test	Mastercard	56.65 USD

3. For the last capture the **Final capture** check box will be automatically checked. Enter the remaining amount to be captured and select **Capture Final Payment**.

Orders	Transactions	
arch or Fil	ter:	
Transactio	n ID v Sear	ch
Created:	7/3/2025 00:00 - 23:59 🗸	Organizations (+1) V Merchant ID V

Total: 35 orders

Created *	Reference	Merchant Reference	Organization	Product	Orig. amount
7/3/2025, 14:52:56	2507031556	511918242	Verifone	Visa	74.82 USD
7/3/2025, 14:48:29	2507031554	511918239	Verifone	Visa	47.39 USD
7/3/2025, 14:32:02	2507031552	511918236	Verifone	Visa	47.39 USD
7/3/2025, 14:13:10	2507031550	511918233	Verifone	Visa	12.27 USD

If you've already captured the entire transaction amount during any partial capture sequence, the system will automatically designate that capture as the final one.
