COMMANDER SITE CONTROLLER APPLICATION	5

COMMANDER SITE CONTROLLER APPLICATION

The Commander Application information can be obtained by checking the front of the Commander, through the Configuration Client, or through the POS.

The application currently loaded on the Commander is displayed in the small green screen on the front of the Commander. In the picture below, the site is loaded with the Bypass application and is running software version 56.02.00.

To access the application information from the Config Client perform the following steps:

1. Log into Config. Client
2. Click on Help
3. Select About.
4. In the example below, the location is running the Bypass application with software version 55.02.04.

Version Information

Suite	buypass	55.02.04
Base	055.02.04	2025-05-03T00:51:13+00:00

To access the application information from the POS, perform the following steps:

1. Log into the POS
2. Touch on Help
3. Select About.
4. In the example below, the location is running the Buypass application with software version 56.02.00.
