

USER ADMINISTRATION – ROLES & FUNCTIONS

When configuring SMS users, “Roles” define the types of functions that can be performed by a user. For instance the “Manager” role, by default, includes functions that are commonly used by managers (e.g. Close Daily, Update Fuel Prices). Roles can be created and edited by adding and removing functions under **Security > Manage Users > Configure Roles**.

FUNCTION	CGI CMD
Allow all cashier reports view	allowAllCsrRpts
Allow open cashier reports view	allowOpenCsrRpts
Allow Restricted Access	allowRestricted
Allow Viper period list view	vviperpdlist
Bypass employee id validation	bypassEmployeeid
Carwash Paypoint Period Close	ccwpclose
Cashier Reports	vcashierrept
Change Password	changepasswd
Close Day Now	cclosedaynow
Commit kiosk order	ukioskorder
Compressed Fuel Totals Report	vfueltotalsz
Compressed Period Reports with fully masked card holder data	vtranssetz
Delete Diagnostic Class	diagdeleteclass
Disable Car Wash	ccarwashdisable
Disable Helpdesk Login	cdisablelogin
Download Fuel Prices	cfuelprices
Enable Car Wash	ccarwashenable
Enable Helpdesk Login	cenablelogin
ESafe Cashier Reports	vesafecashierrept
Fuel Totals Report	vfueltotals
Get Time and Date	vdatetime
In-effect Fuel Site Configuration	vfuelrtcfg
Init FP Display Config	cFPDinit
Initialize Carwash Paypoint	ccwppaypointinit
Initialize DCR	cdcrinit
Initialize DCR Driver	cdcrdriverinit
Initialize Fuel	cfuelinit
Initialize Fuel Driver	cfueldrvinit
Load Diagnostic Class	diagloadclass
Notify amber alert updates	notifyamber
Payroll Reports	vpayrollrept
Payroll Reports (new format)	vpayrollrept2
Period Reports with fully masked card holder data	vtransset
Pings a given destination.	cping
